

NOVEMBER 5, 2024: DIRECT NOTICE TO THE LANDLORD

Selected lines from the contemporaneous text exchange documenting that the only gate had become difficult to operate and was reported as a hazard directly to the landlord.

TENANT TO
LANDLORD

"I cannot unlock the door. So, at this point it is a hazard. I am asking that you please change the lock to something that opens easily. ... Please unlock the gate, until the lock is changed."

LANDLORD
RESPONSE

"I noticed it became a bit tricky also, but I have been able to lock and unlock it. ... The gate being left open is the bigger issue than it necessarily being locked."

Redaction scope. Names, phone numbers, exact address, medical history, family information, payment discussion, travel details, and unrelated conversation are omitted. The original export remains preserved separately.
