Peter McGlynn [REDACTED]

Hello Lucí,
I wanted to check in with you to ask if I may go into the guesthouse and adjust the HVAC units.
You left them turned on,
And now that it's getting hotter outside, they are running nonstop.
I'd like your permission to go in and adjust them, to avoid wasting energy, and to check the filters in order to keep the units from over working and possibly causing any problems.
I'll send an email to you as well, in hopes of hearing back from you soon.
If I don't hear from you, I've been advised to put a 24 hour notice on your door to the same effect, and then legally enter whether you get back to me or not.
Thank you
Peter
